**Designed to provide technical assistance and discussion related to the
OSEP Child Outcome requirements**

The **wi-eco-support** listserv is designed to facilitate interactive, electronic communication among the Wisconsin Departments of Health and Family Services (DHFS) and Public Instruction (DPI) and the state's early intervention and early childhood special education leadership. **wi-eco-support** is an open, unmoderated list. It is, however, targeted for local and regional training facilitators (RESource and Program Support Teachers).

DPI and DHFS will use this list to provide:

- notices of available training, meetings, conference calls and newly released materials,
- information related to the Office of Special Education Child Outcome requirements of the State Performance Plan for both Part C and Part B/section 619.
- updates and information on state and federal activities related to serving infants, toddlers, young children with disabilities and their families.

The purpose of wi-eco-support listserv is to provide technical assistance to Birth to 3 RESource and early childhood special education program support teachers and a link to DHFS and DPI information related to the OSEP child outcome requirements. Posted information may be found at:

www.collaboratingpartners.com. Click on the "Early Childhood Special Education: tab. Specific information is at the OSEP Child Outcomes tab. Training materials, handouts and other resources are available for download
