

TRANSITION... A PARENT'S PERSPECTIVE

Do you have questions about what options are available when your child turns three?

Are you wondering how you would find out about what might be best for your child and family?

Would it be helpful to hear how other parents, recently out of the Birth to 3 program, made decisions for their child and family?

Do you wonder what the process is like? What your choices are? What you could do now to be ready for life after Birth to 3?

If so, please attend:
