

Wisconsin Early Childhood Collaborating Partners (WECCP) Listserv

The WECCP listserv facilitates interactive, electronic communication among the agencies, associations, and individuals providing services to Wisconsin's young children (birth to age 8) and their families. The focus is on state, community, and interagency efforts to improve service delivery approaches for young children and their families. The listserv provides a mechanism to share experiences, examples, and resources related to early childhood collaboration, program blending, and system improvement.
