

WI Forces for Four-Year-Olds Listserv
A Project to Promote Community Approaches for 4-Year-Old Children

The *forces44* listserv facilitates interactive, electronic communication between the agencies, associations, and individuals interested in community collaboration related to services to 4-year-old children and their families. The focus is on state, community, and interagency efforts to blend 4-year-old kindergarten, child care, and Head Start resources and funding to create collaborative programs for 4 year old children. The listserv provides a mechanism to share experiences, examples, and, resources to support communities in starting these collaborative efforts and to continue to develop the approaches that exist.
